

# MassTrails awards \$96,000 to help build phase 3 of the Squannacook River Rail Trail in Groton

Squannacook Greenways is pleased to announce that we were awarded a MassTrails grant this month to help build phase 3 of the Squannacook River Rail Trail. This grant of \$96,000 will cover a significant percentage of the cost of this 0.61 mile section in Groton, MA. Phase 3 will run from the northern crossing of Crosswinds Drive, south along the rail bed to the Bertozzi Wildlife Area. Construction will run from November of 2022 until spring 2023, when this section will officially open. The required 20% matching funds are thanks to Community Preservation Act funding in Groton.
